University of the Punjab
2015 - 2019

Intermediate - Computer Science
Govt Post Graduate Collage
2013 - 2015

FARAZ AHMED

Sr. Frontend Engineer

WORK EXPERIENCE

Frontend Developer 2022 - Present

Springfree Trampolines

As a Frontend Developer at Springfree Trampoline, I am responsible for managing the company's Gatsby+Drupal website. This involves ensuring that the website is up-to-date, user-friendly, and responsive. Moreover, I am also developing marketing components with Bootstrap such as Promobars, Promo Banners, Promo Takeovers, and Landing Pages.

Sr. Frontend Engineer 2022 - 2023

Qubiq3 Technologies

As a Senior Frontend Engineer at Qubiq3 Technologies, I developed the SAAS dashboard frontend using React.js, Next.js, Material UI, and other technologies. In addition to this, I was responsible for collaborating with the design and backend team to ensure that the user interface meets the client's requirements and adheres to best practices in user experience design.

Full Stack Developer 2019 - 2022

Austin Hardwood Flooring

I was responsible for developing and maintaining two websites using HTML, CSS, Javascript, JQuery, PHP, MySQL, Nextjs tailwindCSS, Firebase, and NextAuth. In addition to development, I managed all the product inventory on both websites and did graphics work to crop, adjust, and upload product images. Moreover, I also developed LMS for Eco Floors system to sell their hardwood floor installation course.

Web Developer 2019 - Present

Freelancing | Upwork | Fiverr etc.

Since 2019 I've been providing my services as a freelancer as well. I've developed a lot of custom websites with HTML, CSS, JS, ReactJS, NextJS, and Jamstack as well as CMS-based websites using WordPress, Shopify, and Webflow. With expertise in custom website development, I'm capable of creating complex UI Websites with responsiveness across all devices. Moreover, I develop websites adhering to Google Lighthouse standards.
